 Institut Pertanian Bogor

# INTERNATIONAL CONFERENCE ON MARINE SCIENCES 2017

## Introduction

The First International Conference on Marine Sciences (ICMS) 2013 has been successfully held by Faculty of Fisheries and Marine Sciences on 4-6th of June, with around 124 participants from many countries (Germany, Belgium, India, Japan, Phillipines, Polandia, Thailand, Yaman, and Indonesia).

To maintain the spirit of knowledge sharing and development within this quadrennial event thus Department of Marine Science and Technology proudly present **The 2nd International Conference on Marine Science 2017**. In addition to that, this year event will be enriched with paper publication in International Proceeding, with Scopus Index. Each paper presentation will be peer-reviewed to be published in the indexed Scopus Proceeding.

Hence this big event will be a place for many researchers to contribute and share their knowledges and to leverage the World University Ranking program through international reputable publication.

Expectedly, this event will be attending at least 150 participants, with 40 participants academican from Indonesia.

This year event will be held in collaboration with Ambassador of French Republic in Indonesia, and supported by Coordinating Ministry for Maritime Affair.

## Programs

1. International Conference (Oral and Poster Session)
2. Publication on IOP Science
3. Excursion\*

note : \* : conditional

## Paralel Session

Bioecology-Ecophysiology  
Marine and Coastal Ecosystem  
Large Marine Ecosystem  
Marine Bio-Ecoregion  
Biology, Physiology, Ecology, Biodiversity  
Symbiosis in Marine Ecosystem

ITF Studies, Upwelling, Fisheries-  
Oceanography, Physical and Biogeochemical  
of Upwelling Processes  
Coastal Dynamics  
Ocean-Atmosphere and Climate Change

Remote Sensing, GIS  
Underwater Acoustic for  
Spatial Planning  
Underwater Seascape

Marine Instrumentation  
Robotics and Automation

Mariculture Marine Harvesting System  
(incl Strategies and Management)  
Post-Harvest Processing and Industries  
Coastal and Marine Adaptation  
Mitigation to Climate Changes

## Venue

The ICMS 2017 will be held in IPB ICC Botani Square Bogor. As for the reservation of the nearest accomodation recommendation is **Bogor Santika Hotel, IPB Convention Hotel, Royal Amaroossa Bogor, Favehotel Padjajaran Bogor, Hotel Permata, Grand Savero Hotel, Hotel Amaris, D'Anaya Hotel Bogor, Izi Hotel, Royal Hotel Bogor and New Ayuda Hotel Bogor, Malabar Park**. And if there any difficulties of contacting those accomodation facilities you can contact the organizer by email for any kind of help.

## Why Bogor?

Bogor is part of the beauty of Bumi Parahiangan. Bogor is also known as the rain city with average temperatures every month 26° C with the lowest temperature of 21.8 °C with the highest temperature of 30.4 ° C. The humidity reaches 70%, and the average annual rainfall is about 3,500 - 4000 mm. Bogor is known for its tourist destinations such as Bogor Botanical Gardens, Bogor State Palace and natural attractions (waterfalls, hot springs, tourist areas of Puncak Bogor, etc) as well as its distinctive culinary (Asinan Bogor, Soto mie, etc).
